SUMMARY

I'm a Web Developer with a passion for technology and design. If I'm not browsing CodePen, I'm exploring a new programming language, with the documentation always at hand. I've built full-stack web applications in Java incorporating frameworks such as Bootstrap, JQuery, and Spring which make use of MySQL Databases.

SKILLS

LANGUAGES: Java, JavaScript, HTML, CSS
FRAMEWORKS: JQuery, Spring, Boostrap
WIRE-FRAMING TOOLS: Adobe Photoshop, Adobe Illustrator, Adobe XD, Draw.io

PROJECTS

Blog Content Management System
Created a full-stack blog application with a content management system using HTML, Bootstrap , Java , Jdbc (Java Database Connectivity), and MySQL.

Vending Machine
Created a Vending Machine browser-based user interface for an existing web service using HTML, CSS, JavaScript, and jQuery.

EMPLOYMENT

The Software Guild, *Web Developer Apprentice*   Oct 2017 - Jun 2018
Created full-stack Spring MVC Web apps , using MySQL Databases. Learned Object Oriented Programming concepts, the Spring Framework, Data-Driven Web applications and Relational Database Management.

XMANIFOLD, *Design Intern*   Oct 2016 - Dec 2016
Collaborated in the construction and launch of a book being sold at the New Museum. Designed brand collateral's on a daily basis. Social media management. In charge of creating, finding, posting content for the companies Facebook, Twitter, and Instagram.

United Federation Of Teachers, *Print Design/Print Production Intern*   Jun 2016 - Sep 2016
Worked with clients in order to improve their businesses brand identity and develop print designs for various events. I also used and was in charge of the Digital Imaging Printer. I worked with large printouts using the Kip Printer, and helped maintain the machinery.
